ABOUT ME

Hello! I am a storyboard artist and have been working in animation since 2022. I'm open to any experience that further develops my skills as a storyteller. Working in animation combines two things I'm passionate about: filmmaking and art. It's a uniquely intense job and satisfies every itch I need to scratch as a creative person. When I'm not on the job, you can find me at a nearby coffee shop with a good book and latte.
